Sudoku Solver Crack has more options than other Solvers on the Internet:

- Fill missing numbers with the digits 1-9
- Fill missing numbers with the digits 0-9 and A-Z

- Include multiple hints (optional)
- Skip certain days or rows, columns, and rows, by selecting the days/columns/rows that should be excluded from solving (all of the rows must be excluded in order for them to be skipped)
- Set rules for numbers to be changed. For example, "i can never be in the same cell as f, m, or s", or "i must be able to be changed to one of the 13 words".
